

**Corpus de règles** | 22 novembre 2017

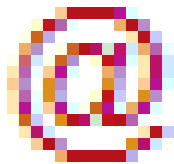

Lors de catastrophes importantes, le responsable régional est l'interlocuteur pour les cellules de crise et/ou les organisations mises en place sur le terrain. Au besoin, le responsable régional ou une personne mandatée par lui se rend immédiatement sur place.

Le responsable régional représente le Pool DN à l'égard des autorités et des cellules de crise. Il est habilité à répondre aux questions posées par les autorités et les médias sur les problématiques d'assurance ou à prendre, dans l'intérêt des membres du Pool, toutes décisions indispensables à un règlement ordonné et uniforme des dommages et qui, dans certaines circonstances, peuvent également avoir des conséquences financières pour le Pool. Il peut désigner sur place un responsable local, lequel coordonne alors au besoin le traitement des sinistres et intervient à sa place comme interlocuteur auprès des autorités.
